

ZEPRO ZHD3000

Suitable segments

- Vehicle rental
- Food and Beverage
- Heavy distribution
- Automotive parts
- Laundry delivery
- Construction material

The ZEPRO ZHD3000 is our highest-capacity tail lift with a 3000kg loading capacity, engineered for the most demanding environments – delivering maximum load performance, unrivalled reliability in any condition, and fast, safe operation for maximum uptime and efficiency.

Maximum load capacity for demanding operations

With a 3000kg loading capacity, this tail lift is built to handle the heaviest loads to maximise delivery efficiency without compromising safety, stability or reliability. Large, stable steel platforms, available in several configurations, make it ideal for the most demanding operations.

Superior reliability in all conditions

Double-acting tilt cylinders maintain consistent speed and performance even in extreme cold. The hydraulic unit and control card are fully protected inside the main beam, shielding vital components from weather and wear for increased uptime and easy servicing.

ZHD3000 Specifications	
Platform width	< 2580 mm
Platform depth	2500 mm
Lifting capacity	3000 kg
Bed height max	1500 mm
Voltage	12V or 24V
Platform	Steel
Weight of complete lift	From 470 kg

Fast, smooth & safe operation

Advanced hydraulic design ensures steady, responsive lifting on any terrain – keeping deliveries efficient and on schedule. Ergonomic, intuitive controls reduce operator strain and improve safety.

Fast, easy installation

Bolt-on mounting brackets allow for quick setup and integration in under 4 hours, minimising downtime.

Long-term value

Delivering lasting corrosion protection with premium powder coating. Featuring durable hydraulics with a ClearOil long-life filter, optional solar panels, and tested for 30,000 lift cycles (12 years), it cuts downtime by up to 66% and maximises ROI.

Options

Safety	Rollstops on platform Warning lamps Drive over locks
Operation	Foot controls Radio control Side loading ramps Electric auto-tilt Platform access ladder
Material	PIEK platform coating ZINC anti-slip platform coating Custom platform colours available
Installation	Platform as rear door with ZEPRO's heavy-duty seal system Standard mount bracket kit
