

FM

THE ULTIMATE FINAL MILE SOLUTION

MEET THE WALTCO FM SERIES, AVAILABLE IN 1,000 AND 1,600 LBS.

Final mile delivery is a booming market, but there is a constant battle to improve efficiency as the market sector evolves from basic goods to bulky, expensive home goods.

Keep delivery promises and deliver more cargo safer and faster with the WALTCO FM Series. It gives you all the advantages of a liftgate, without the added weight.

Safer fleets:

Using a liftgate means safe operation for both cargo and delivery drivers. Ergonomic operation minimizes workplace accidents and boosts driver satisfaction. You won't have to worry about delivery drivers compromising safety for efficiency since the FM Series acts as the rear door and must be utilized to access payload.

Faster delivery:

The innovative solution, WALTCO FM Series is a full-closure liftgate functioning as a combined rear door and liftgate. It can safely handle up to 1,600 pounds of cargo as soon as you open up the back of your truck by lowering the liftgate - no wasted delivery time. WALTCO FM Series reduces liftgate operation time by 45%, when compared to a traditional liftgate.

Lighter weight:

The WALTCO FM Series' integrated back door and liftgate design is on average 500 pounds lighter than traditional liftgates, contributing to lower fuel consumption.

Recommended Segments

- Final Mile

FM Specifications	
Platform width	91"
Platform depth	50"
Lifting capacity	1,000 and 1,600 lbs.
Bed height	30" - 42"
Platform	Aluminum
Ramp	8"
Weight of complete lift	From 686 lbs.

Standard Features

Safety	Material
Safety hand rails	Aluminum platform
Cart stops	
Load safety device	

Optional Features

Performance	Maintenance	Installation
Solar charging	Factory installed cycle counter	Auxiliary Battery Box
Cab shut of switch
