

ZEPRO ZS

Suitable segments

- Vehicle rental
- Food and Beverage
- Home delivery services

Engineered for fast, reliable performance, the ZEPRO ZS150/200/250 is a versatile slider lift combining robust steel construction, advanced hydraulics, easy setup and upkeep, superior weather protection, and intuitive controls – delivering smoother operation and reduced downtime for maximum productivity and ROI.

Fast, reliable performance

A robust chain and sprocket slide system built on heavy-duty steel profiles ensures consistent, long-term reliability. Advanced hydraulics enables smooth, fast operation in all conditions.

Superior protection & easy maintenance

Hydraulic unit and control card are safely housed within the main beam, shielding key components from the elements and reducing maintenance needs. Simplified service access cuts downtime and improves overall equipment lifespan.

ZS Specifications	
Platform width	Up to 2400 mm*
Platform depth	Up to 1960 mm*
Lifting capacity	1500 kg, 2000 kg and 2500 kg
Bed height max	1725 mm
Voltage	12V or 24V
Platform	Aluminium-Aluminium
Weight of complete lift	From 493 kg
Max vehicle weight	26 t

*See specification sheet for details

Effortless installation

Designed for quick, bolt-on truck installation in under 4 hours, minimising production time.

Enhanced safety & user experience

Ergonomic, intuitive controls promote safety, comfort, and efficiency – reducing operator fatigue and boosting daily productivity.

Long-term value

Delivering lasting corrosion protection with premium powder coating and optional galvanising. Featuring durable hydraulics with a ClearOil long-life filter, optional solar panels, and tested for 30,000 lift cycles (12 years), it cuts downtime by up to 66% and maximises ROI.

Options

Safety	Trolley stops IP67 flashing warning lights on platform Non-slip platform
Operation	Foot control Auto-tilt Up to three controls can be used, including one radio remote control Water absorbing oil filter for extended lift and oil life Three different arm lengths to fit all types of trucks and applications
Material	Corrosion-protected hydraulic slider motor for tough climates Two sizes of bavettas with integrated platform stops for easier installation
Installation	Available both as standard version and slim version with maximised ground clearance Brackets pre-drilled for all major truck manufacturers
