- Local authorities
- Railways
- Laundries
- Builders merchants

Move more with confidence - our high-strength, lightweight column lift boosts payload capacity, keeps your vehicles running longer, and ensures safer, smoother operation – for maximum uptime and ROI.

Optimised performance & payload

A lightweight, high-strength design protects payload capacity, enabling more cargo per trip for all your 3.5 tonne vehicles. The stable platform supports efficient multi-load handling, and quick-acting hydraulics combined with a level-ride platform ensure smooth, safe operation in all conditions.

Maximum uptime & reliability

The simple, circuit-card-free electrical system and pre-drilled columns ensure quick installation and easy maintenance, while the bolt-together design allows fast component replacement to keep costs low. Backed by our extensive service network, your vehicles stay operational with minimal downtime.

DL500 Specifications	
Column width	1780 - 2260 mm in nine standard widths*
Platform depth	815 - 1370 mm*
Lifting capacity	500 kg
Bed height min/max	800 mm/1060 mm
Platform	Aluminium
Weight of complete lift	135 kg
Max vehicle weight	3.5 t

*See specification sheet for details

Options

Safety	<ul style="list-style-type: none"> Auto erect fences Wrap around fences - extended Pair detachable side guards Three-way folding ramps Fixed ramps and trolley stops Flashing lights Switch over control on dual control
Operation	<ul style="list-style-type: none"> Standard columns Short column application Battery guard Dual controls, with or without Wanderlead (spiral cable)
Material	Platform in anodised aluminium
Installation	<ul style="list-style-type: none"> Plug-and-play installation Factory body fitting kit
Warranty	<ul style="list-style-type: none"> 12 months parts and labour as standard Extended warranty

Safe & easy operation

Featuring a torsion-assisted platform with flush lock, safety catch design and anti-tilt system, our lifts offer effortless and secure handling. A quiet chain/roller system enhances operator comfort. Safety fence options and full EU compliance protect operators and bystanders.

Long-term value

Built for lasting performance and a lower environmental impact with optional solar panels tripling battery life, advanced galvanising, optimised steel and aluminium structures, and a high capacity-to-weight ratio boosting fuel efficiency – for a lift that runs cleaner, lasts longer (7-10 years), and delivers maximum uptime and ROI.
