

HLF

THE PREMIUM FLIPAWAY GATE FOR TRUCKS AND TRAILERS

A heavy-duty liftgate with lifting capacities of 2,500, 3,000, 4,000, and 5,000 lbs.

A versatile design that offers maximum convenience, performance and flexibility.

The two-section, lightweight loading platform can be folded and stored beneath the vehicle floor, enabling easy access to the cargo area without activating the lift.

The liftgate is welded to the frame of the vehicle chassis to ensure optimum safety.

Recommended Segments

- Food and Beverage
- Rental/Leasing
- Wholesale distribution
- Construction
- Home delivery services
- Laundry
- Retail

Galvanized finish standard:

Extend product lifecycle with the best corrosion resistant finish in the industry.

Reliable operation:

All key components are designed to perform at their best. The electrical system has a dedicated ground wire, fully potted toggle switches, and two solenoids to keep you moving. The hydraulic system is fully closed to keep contaminants out while the cylinders stay protected in transit since they are fully retracted.

Safer operation:

The large aluminum platform with cart stops deployed offers plenty of working room and allows for easy handling of pallet loads, and the torsion-assist, lightweight platform folds away easily for the driver. The platform remains stowed with a hydraulic lock valve, no transit chain required.

Slip resistance:

The aluminum platform comes with a knurled surface to help with grip, creating a non-slip environment.

Simplified maintenance:

External curbside pump for safe and easy access. Grease fittings at all major hinge points.

HLF Specifications	
Platform width	84"
Platform depth	60"
Lifting capacity	2,500 lb., 3,000 lb., 4,000 lb., and 5,000 lb.
Bed height	Min 46" to Max 60"
Platform	Aluminum
Ramp	Wedge
Weight of complete lift	1,114 to 1,352 lbs.

Standard Features

Safety	Performance	Maintenance	Installation	Material
Knurled aluminum platform surface	Torsion-assist platform extension	Easy access pump	Bolt-on bed extension	Steel substructure
Hydraulic lock valve	Power down	Grease fittings at all major hinge points	Power unit pre-mounted and fully tested at the factory	Galvanized finish
	Faster operating speeds	Dedicated ground wire		Aluminum platform
	One or two-step fixed dock bumpers			Heat treated pins

Optional Features

Safety	Performance	Maintenance	Installation
Cart stops	LED Tail light configurations	Cycle Counter	Trailer subframe kit
Flashing platform warning lights	Walk ramp kit		AUX battery kit
CMVSS certified bumper for 4,000 and 5,000 lbs capacities	Solar charging		
	ICC style bumper kit		
	Cab shut off		
	Wire rope step		
	Dual controls
