

Tuckunder lift with 1000 kg lifting capacity, galvanised steel frame and an all aluminium platform.

Robust design makes this the first choice for heavy duty urban distribution vehicles. When the lift is in the stowed position the vehicle can be loaded at a loading bay without any potential damage to the tail lift. A robust lift designed to maximise payload and vehicle uptime.

- **Durable:** Fully galvanised steelwork for added protection against corrosion.
- **Safety:** A platform steel subframe to offer greater stability during tail lift operation.
- **Ease of Installation:** Fully assembled lift making it quicker and simpler to install.
- **Low maintenance:** Lifting ram fully protected when lift in stowed position. Greaseless, heavy duty bearings.

The DA1000 is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

For all 7.5 – 26 tonne vehicles

SUITABLE FOR

- Vehicle rental
- Parcel deliveries
- Multi-purpose vehicles
- Home delivery services

DA1000 Specifications

Column width	1980 mm
Platform depth	1220 mm *including 205 mm ramp
Lifting capacity	1000 kg
Bed height min/max	975 – 1190 mm
Platform	Aluminium with steel support
Weight of complete lift	285 kg
Max vehicle weight	26 t

*See specification sheet for details.

DA1000 OPTIONS

Safety

- Detachable fences
- Fixed ramps and trolley stops
- Flashing lights
- Switch over control on dual control

Operation

- Battery guard
- Dual controls, with or without Wanderlead (spiral cable)

Material
