

ZEPRO Z100

Suitable segments

- Vehicle hire
- Wholesalers
- Highways
- Horticulture
- Laundries
- Parcel deliveries
- Bakeries
- Home delivery services

Engineered for peak efficiency, the ZEPRO Z100 tail lift combines 1000 kg lifting capacity with a durable, corrosion-protected design and rapid installation - delivering maximum uptime, safety, reliability, and long-term ROI for every 5-12 tonne truck.

Heavy-duty lifting confidence

A robust four-cylinder tail lift delivering up to 1000 kg capacity on a large, high-strength platform, built for trucks from 5-12 tonne GVW to ensure safe, stable, and effortless handling of heavy goods.

Fast, reliable performance

Advanced hydraulics and double-acting tilt cylinders enable smooth, quick operation in any conditions – perfect for tight or uneven delivery sites and handling multiple packages.

Enhanced safety & user experience

Ergonomic, intuitive controls boost safety and operator comfort, reducing fatigue and improving overall productivity.

Z100 Specifications	
Platform width	Up to 2580 mm*
Platform depth	Up to 1725 mm
Lifting capacity	1000 kg
Bed height max	1300 mm
Voltage	12V or 24V
Platform	Aluminium
Weight of complete lift	236 kg
Max vehicle weight	12 t

*See specification sheet for details

Options

Safety	A variety of trolley stops available Flashing warning lights on platform Non-slip platforms
Operation	Up to four controls can be used, including one radio remote control Foot control option Auto-tilt option Side loading ramp available
Material	Platform in anodised aluminium PIEK platform coating
Installation	Mounting brackets for all major trucks available Platform as rear door with ZEPRO's heavy-duty seal system

Quick & universal setup

Two lifting arm options ensure a perfect fit for any vehicle type. Vehicle-specific mounting kits simplify installation (under 4 hours) on all major light-segment trucks, while universal mounting kits handle heavier models for complete operational flexibility.

Long-term value

The Z100 tail lift delivers lasting corrosion protection with premium powder coating and optional galvanising. Featuring durable hydraulics with a ClearOil long-life filter, optional solar panels, and tested for 30,000 lift cycles (12 years), it cuts downtime by up to 66% and maximises ROI.
