

MULTILIFT OPTIMA FAMILY

JUST GOT BIGGER

PRODUCT BROCHURE

A NEW FAMILY OF HOOKLIFT THAT GETS THE JOB DONE

AVAILABLE FOR TWO, THREE AND FOUR AXLES TRUCKS

Our **MULTILIFT Optima family** now consists of 15-, 20- and 25-ton hooklifts with the ability to work faster and carry more payload than any other hooklift.

With an attractive price for quality, you gain superior value for money.

Quality and safety only MULTILIFT can offer including new features such as:

Controller for main functions and up to four options
More Payload from light and strong frames

Add automatic sequence, fast speed, friction relief, hydraulics etc.

Here are just a few of the advancements you gain.

- **CapacitySpecific™** design gives you just the capacity you need.
- **ValueBuy™** provides an attractive price for quality.
- **Fast Performance™** increases your speed in operation.
- **EvoLight™** construction means more payload.
- **SafetyPlus™** boosts safety for both operator and surroundings.

THE SMART CHOICE BECOMES AN EASY CHOICE

MULTILIFT OPTIMA

FEATURES YOU CAN COUNT ON

The key to better business in routine tasks is reliability. With MULTILIFT Optima, you have exactly the functions you need. And they perform with precision clockwork over and over again, without fail.

Get the job done!

CapacitySpecific™ design gives you just the capacity you need

Optimized for working with predictable, repetitive loads, MULTILIFT Optima gives you dependable performance without going overboard with power that does not apply to your work.

ValueBuy™ provides an attractive price for quality

Every detail of the MULTILIFT Optima upholds the highest performance standards streamlined with exactly the functions you need for fundamental loading tasks. Giving you superior value for money.

Fast Performance™ increases your speed in operation

Fast tipping and fast speed functions give a significant productivity boost.

NewController more options

Optima family received an updated controller with one more function to control up to four additional functions.

EvoLight™ construction means more payload

MULTILIFT Optima is light, lean and tough. The lightweight steel construction gives more legal payload without compromising strength. That means customers can haul more while saving fuel and reducing CO₂ emissions.

SafetyPlus™ boosts safety for both operator and surroundings

Safety, both for the operator and surroundings, are paramount for MULTILIFT. The new MULTILIFT Optima hooklift provides state-of-the-art safety features.

MAKE YOUR MULTILIFT EVEN BETTER

Improve function and safety of your MULTILIFT with original accessories. Accessories can extend the versatility of your equipment and enhance its flexibility and earning potential. The range of MULTILIFT accessories are manufactured to the highest quality.

Hydraulic underrun bar

The underrun protection bar (URB) is a horizontal bar mounted behind the rear wheels of the trailer. Adjustable hydraulically from truck cabin by the driver. Three different lengths: 810, 950 and 1150. The URB is CE certified.

Benefits:
Easy to use, no need for driver to go out and extend the URB. Bolted solution to avoid all welding on a truck → no repaint needed. Use of proper URB maximizes safety on the road.

Mechanical underrun bar

The underrun protection bar is a horizontal bar mounted behind the rear wheels of the trailer. Adjustable manually by the driver. Three different lengths: 810, 950 and 1150. The URB is CE certified.

Benefits:
Cost effective. Bolted solution to avoid all welding on a truck → no repaint needed. Use of proper URB maximizes safety on the road.

Rear stabilizer roller

The rear stabilizer roller is assembled at the rear of the truck to give more stability when tipping, loading or unloading heavy loads.

Benefits:
Increased stability for maximized safety.

Aluminium hydraulic tank

Aluminium tanks are perfectly adjusted to our demountables. Tank sizes are 75, 100 and 150 litres.

Benefits:
Easy mounting onto every truck chassis with original mounting brackets. Corrosion-free materials.

Truck rear cross member

Truck rear cross member with holes for electric and pneumatic connectors.

Benefits:
Bolted structure → easy to mount. Available for main truck brands.

Mounting plate kits

Components to fit hooklift onto truck chassis.

Benefits:
Secure proper installation and reduce the installation time. Fully bolted system means there is no need for painting after installation.

By-pass valve for HIAB pumps

By-pass valve to be used together with HIAB branded fixed hydraulic pumps.

Benefits:
Minimize heat generation in pumps mounted onto engine take-off.

Suction connection

Suction connection for HIAB pumps.

Benefits:
Facilitate installation of a HIAB pump.

Part of the complete MULTILIFT range

MULTILIFT LIGHT/MEDIUM

Extra-high performance for a full range of loading tasks with added power for demanding situations and driver assistant functions for ease of use

- 2-10 ton capacity
- Sliding (S) movement
- Manual control
- Standard MULTILIFT features

MULTILIFT CLASSIC

Basic performance covering general demands for a range of demountable tasks.

- 18-22 ton capacity
- Sliding (S) and Tilting (T) movement
- Manual control
- Standard MULTILIFT features

MULTILIFT OPTIMA FAMILY

High performance and smart value for money in handling fundamental loading needs

- 15 - 25 ton capacity
- Sliding (S) movement
- Basic control system
- Low weight, low installation height and high operating speed

MULTILIFT ULTIMA

Versatility and performance for all needs

- 14-30 ton capacity
- Heavy and Low-built models
- Sliding (S) and Sliding/Tilting (Z) movement
- uControl next-generation control system with 3 levels of control
- HiVision camera-guided operation on 4 levels
- Built-in HiConnect functionality
- ProFuture models

DELIVER AS PROMISED WITH HIAB SERVICES

When you invest in Hiab equipment, you invest in quality performance to safely and efficiently fulfil your commitments to your customers – every single day.

With Hiab Services, we are here for you throughout your equipment lifecycle, giving the uptime and reliability you need to deliver as promised. With the latest tools, connectivity and a wide network of experts,

we support you whenever and wherever you need us. So you can sleep well at night – every single night.

- Lifecycle Services

- Connected Services
- Financial Services

Securing your original investment

Hiab Original Parts ensure that your Hiab product stays a Hiab product. In other words, they give you the same functionality and quality you invested in from the start – essential for optimal performance, maximum safety and avoiding costly downtime. Our parts are manufactured to the highest standards. They are specially designed for our equipment; guaranteeing perfect fit and the quality necessary for top performance.

You'll find Hiab Original Parts for fast order via our Hiab web shop. Our optimized stock and logistics ensure next-day delivery on almost all items, saving you time and cost.

Produce as planned

Hiab ProCare™ is a flexible service contract designed to secure the uptime of all Hiab equipment. Scheduled and preventive maintenance helps your equipment retain the same high quality you invested in. Using original spare parts and the highest standards, our global service network takes professional care of every piece of your equipment reducing the risk of costly breakdowns and unexpected downtime. Let us take care of all scheduling, maintenance and inspections. By reducing total cost of ownership and increasing the re-sell value of your machine, ProCare brings you total peace of mind. Keep moving to produce as planned and boost your profit.

BUILT TO PERFORM

Hiab is the world's leading provider of on-road load handling equipment. Customer satisfaction is the first priority for us. Hiab's product range includes HIAB loader cranes, JONSERED recycling and forestry cranes, LOGLIFT forestry cranes, MOFFETT truck mounted forklifts and MULTILIFT demountables, as well as DEL, WALTCO and ZEPRO tail lifts.
