

HDC 33/44

THE NEW GENERATION OF HEAVY LIFTS

A heavy duty cantilever lift with a lifting capacity of 3,300 and 4,400 lbs.

An advanced and yet robust design makes this the top line choice for all heavy vehicles wanting to maximize up time.

Comes with a galvanized high strength steel frame and an aluminum platform with different size options.

Offers a 40" load center designed for maximum stability. The platform can replace the vehicle rear door of the body which saves time for the operator, keeps goods safe, and minimizes up-front costs and door maintenance.

Recommended Segments

- Food and Beverage
- Wholesale distribution
- Laundry delivery
- Construction material
- Vehicle rental
- Home delivery services

Safer performance:

Dual tilt and gravity down lift cylinders for reliable loading and unloading in all conditions. The wide aluminum platform with cart stops help keep loads sturdy and drivers safe while making deliveries.

Max corrosion resistance:

The product's lifetime is extended with the industry leading corrosion-resistant finish and lightweight aluminum platform.

Service friendly:

The new Solid State Relay card helps to simplify electronics while making diagnostics easy for technicians and cutting troubleshooting time in half.

Low maintenance:

Corrosion protected cylinder rods with bellows extend the life of cylinders. Ozone-resistant thermoplastic hoses extend the lifecycle of the hydraulic system. The power pack is located inside the mount tube to protect it from the elements. An easy slide out tray keeps maintenance quick and simple.

HDC Specifications	
Platform width	94" and 100"
Platform depth	72" and 84"
Lifting capacity	3,300 lbs. and 4,400 lbs.
Bed height	Min 44" to Max 61"
Platform	Aluminum
Ramp	Wedge
Weight of complete lift	1,045 to 1,109 lbs.

Standard Features

Safety	Performance	Maintenance	Installation	Material
Cart stops	40" load center for maximum stability	Galvanized power pack in the mount tube on an easy access slide tray	Width adjustable mounting brackets	Galvanized high strength steel frame
Platform lights	Dual tilt and gravity down lift cylinders	Cylinders fully protected by bellows		Aluminum platform
Cab shut off switch	Electrical auto-tilt Intuitive main control unit with LED guiding lights Fixed control and one handheld wired remote	Ozone-resistant thermoplastic hoses		

Optional Features

Performance	Installation
Platform as rear door with full door seal kit	Steel rear sill extension
Flip-up door kit	Trailer subframe kit AUX battery kit
