

DL500GP/GRP

The industry's leading column lift for all 3.5 tonne dropside vehicles based on the new generation DL500.

Very flexible with multiple platform depths and options. Aluminium platform with steel mesh or GRP plastic mesh window. Both options offer higher visibility, allow debris to fall through the platform, and suffer less wind drag with improved fuel efficiency. The difference between the options is the lower weight of the plastic mesh.

The latest generation of DL500GP/GRP has all the benefits associated with the DL500: Fully galvanised steelwork in high grade steel, protected power pack in the beam, and torsion assisted platform for ease of operation.

- **Increased payload:** 10% lighter with the same strength and rigidity.
- **Quick installation:** Pre-drilled columns and plug-and-play options.
- **Smooth operation:** Low noise with new chain drive. New, flush platform lock design.
- **Safer handling:** New catch design. Anti-tilt feature improves platform operation.

The DL500GP/GRP is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

For all 3.5 tonne dropside vehicles

SUITABLE FOR

- Construction
- Highways
- Tool hire
- Builders merchants
- Horticulture
- Local authorities
- Railways

DL500GP/GRP Specifications

Column width	1922-2260 mm in 10 standard widths*
Platform depth	915 mm – 1200 mm*
Lifting capacity	500 kg
Bed height min/max	800 mm/1060 mm
Platform	Aluminium with mesh insert
Weight of complete lift	135 kg (GRP)/150 kg (GP)
Max vehicle weight	3.5 t

*See specification sheet for details.

DL500GP/GRP OPTIONS

Safety

- Auto Erect Fences
- Wrap around fences
- Pair detachable side guards
- Fixed ramps and trolley stops
- Rear 3-way folding ramps
- Flashing lights
- Switch over control on dual controls

Operation

- Standard Columns
- Short Column application
- Battery guard
- Dual controls, with or without Wanderlead (spiral cable)

Material

- Platform in anodised aluminium with steel mesh window
- Platform in anodised aluminium with GRP mesh window

Installation

- Plug and play installation
- Factory body fitting kit

Warranty

- 12 months parts and labour as standard
- Extended warranty

For full specification and possible combination of options please refer to lift data sheet and price list.

UPTIME ASSURED WITH DEL SERVICE & SPARE PARTS

To keep your tail lift fit for work, we start with preventive measures such as regular planned maintenance and the exclusive use of high-quality original parts. Should problems arise, we minimise your downtime with national 24/7 breakdown coverage and a broad network of service workshops with spare parts in stock. Everything is set up to ensure your business keeps running smoothly and you keep delivering.

Hiab Tail Lifts include three brands: DEL, ZEPRO and WALTCO.

Hiab is the world's leading provider of on-road load handling equipment, intelligent services, smart and connected solutions. As the industry pioneer and with a proud 75 year history, Hiab is committed to be the preferred partner and solution provider to its customers and shape the future of intelligent load handling.
