

DEL FC500/750

THE ALL-IN-ONE SOLUTION

The FC500/750 is a convenient solution for full-closure tail lifts that can be fitted in a single installation.

The FC500/750 is an integral solution between tail lift and rear door. It substitutes the rear frame and shutter door of the vehicle body.

This reduces installation time and allows the operator to deploy and stow the tail lift platform in half the time versus a traditional tail lift set-up, allowing for faster operations.

This lift has an all anodised aluminium frame and torsion assisted platform for ease of operation.

Increased payload:

The integrated design saves installed weight to maximise vehicle payload and improve fuel efficiency.

Ease of service:

Critical hydraulic components are contained within the tail lift beam for protection and easy access.

Reduced maintenance:

Wear pads as standard to minimise maintenance and all-anodised aluminium finish protects the lift even in the harshest of environments.

The FC500/750 is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

Recommended Segments

- Vehicle hire
- Wholesalers
- Retail
- Local authorities
- Laundry
- Retail
- Low floor vehicles

Product Specifications	
Platform width	2065-2280 mm in standard width*
Platform depth	1065-1370 mm*
Lifting capacity	500 kg and 750 kg
Bed height	800-1060 mm
Platform	Aluminium
Weight of complete lift	FC500: 210kg (standard specification) FC750: 230kg (standard specification)
Max vehicle weight	3,5 T

*See specification sheet for details

Standard Features

Safety	Performance	Maintenance	Material
Pair of aluminium trolley stops Load safety device on each slider Platform safety catch/ Anti tilt catch	Level ride platform Torsion assisted platform	Slide wear pads	Anodised aluminium platform & frame Top door in lightweight polymer material Steel housing

Optional Features

Safety	Installation	Material
Auto erect fences Drop down fences Detachable fences	Pre wired external slimline control Plug-&-Play Low floor application (toe guard to accommodate rear lights)	Battery guard Solar panel kit
