

DEL S1500

Suitable segments

- Vehicle rental
- Laundries
- Bakeries
- Builders merchants
- Traffic management
- Home delivery services
- Local authorities

Our superloader column tail lift delivers heavy-duty lifting power with lightweight efficiency – combining robust and versatile engineering, all-weather safety and performance, and low-maintenance reliability to maximise payload, uptime, and long-term ROI.

Heavy-duty performance

The DEL S1500 is a heavy-duty yet lightweight column tail lift offering a 1,500 kg capacity for 12+ tonne vehicles, with a 1,000 kg version available for 7.5 tonne models. Combines robust engineering with a lightweight design to maximise payload capacity.

All-weather efficiency & safety

The stable, level-ride platform with quick-acting hydraulics ensures smooth, safe operation in all conditions. With a torsion-assisted platform, anti-tilt system, and safety fence options, every lift delivers effortless handling, full EU compliance, and superior protection for operators and bystanders.

S1500 Specifications

Column width	2412 - 2512 mm in four standard widths*
Platform depth	1065 - 1525 mm*
Lifting capacity	1500 kg
Bed height max	Up to 1470 mm
Platform	Aluminium
Weight of complete lift	375 kg
Max vehicle weight	26 t

*See specification sheet for details

Options

Safety	<ul style="list-style-type: none"> Pair detachable side guards Dual-mode fences Three-way folding ramp on steel or aluminium Fixed ramps and trolley stops Flashing lights Switch over control on dual controls
Operation	<ul style="list-style-type: none"> Standard column length Battery guard Dual controls, with or without Wanderlead (spiral cable)
Material	Platform in anodised aluminium
Installation	Barn door option
Warranty	<ul style="list-style-type: none"> 12 months parts and labour as standard Extended warranty

Maximum uptime & reliability

The simple, circuit-card-free electrical system, pre-drilled columns and mounting brackets, and greasable long-life sprocket pins ensure quick installation and easy maintenance, while the bolt-together design allows fast component replacement to keep costs low. Backed by our extensive service network, your vehicles stay operational with minimal downtime.

Future-ready flexibility

Designed to evolve with customer needs - optional retrofit safety upgrades such as safety fences and hinged side ramps can be easily added.

Long-term value

Built for lasting performance and a lower environmental impact with optional solar panels tripling battery life, advanced galvanising, optimised steel and aluminium structures, and a high capacity-to-weight ratio boosting fuel efficiency – for a lift that runs cleaner, lasts longer (7-10 years), and delivers maximum uptime and ROI.
