

MDV

IDEAL FOR DOCK LOADING AND DISTRIBUTION

Lifting capacity of 3,000 lbs. and 4,000 lbs.

When every drop-off counts, your liftgate should balance power with safety and efficiency. The latest innovation from WALTCO provides that perfect balance in the brand new MDV liftgate.

Using modern engineering principles and design standards, the MDV is built for swift, hassle-free dock loading and distribution with heavy duty dock bumpers, a folded platform that can be lowered at the dock, with a push-button control switch.

The MDV provides industry leading safety with the anti-slip platform, load retention capacity, and lights that illuminate the platform work area.

Work area safety:

Industry leading safety features include light and robust anti-slip knurled aluminum platform, either cart stops or retention ramp to keep loads secure, and LED lights that illuminate the working platform area.

Operational efficiency:

Decrease the amount of time spent in each delivery with platform power/open and close, heavy duty dock bumpers for dock loading, and an intuitive push button control switch.

Low maintenance:

Fewer moving parts provides smoother operation and lower maintenance requirements, with the dual cylinder hydraulic system that does not require any chain and sprockets. Standard galvanized steel columns, runners and aluminum platform prevents corrosion, providing a high quality, long lasting liftgate.

Operational efficiency:

Designed to bolt onto a truck or trailer rear frame with ease utilizing monobolt rivets, simple plug and play hydraulic system, and electrical wire harness, reducing hours worth of installation time.

Recommended Segments

- Food and beverage
- Rental/leasing
- Wholesale distribution
- Construction
- Delivery
- Laundry
- Retail
- Health care
- Hospitality
- Landscaping/floral

MDV Specifications	
Platform width	84" or 90"
Platform depth	48", 60", or 72"
Lifting capacity	3,000 or 4,000 lbs.
Bed height	Min: 34" - 40"* Max: 54"
Platform	Knurled aluminum
Ramp	12" Fixed ramp 16" Retention ramp
Weight of complete lift	From 1,058 lbs.

* Depending on platform configuration

Standard Features

Safety	Performance	Maintenance	Installation	Material
Anti-slip knurled platform	Level ride	Protected power unit	Bolt-on installation	Galvanized steel frame
Platform illuminating worklights	Hydraulic power open and close			Aluminum platform
	Lock valve			
	Heavy duty dock bumpers			
	Power down			

Optional Features

Safety	Performance	Maintenance
Cart stops or retention ramp	Solar power kit	Header kit
Cab shut off switch		Factory installed cycle counter
